

Why attend this workshop?

This “**Management Committee Development Workshop**” is a follow up on the “Secretaries & Executives Project Workshops” held in 2009/10.

Comments and ideas from the previous workshops were used to develop this series with more information for all Show Society Committee members.

These workshops will be presented by Mr Mark Bryant and at times guest speakers will attend providing specialist information.

“The future of the Australian Show Movement relies on the ability for Show Societies to hold a respected position within their community. To achieve this requires strong membership, informed proactive committees and happy volunteers who feel supported by their Show Society.”
